RESPONSE

Honorable Director
Washington, D.C. 20231

Sir:

The Office Action of June 2, 2000, Paper No. 12, primarily in the nature of a requirement for restriction, has been carefully reviewed.

Restriction has been required between what the examiner deems to be two patentably distinct inventions, namely:

Group I, presently comprising claims 28 and 35 and drawn to a method of screening for compounds that mediate shedding or proteolytic processing of TNF; and

Group II, presently comprising claims 29 and 36 and drawn to a method of screening for compounds that modulate the phosphorylation of the intracellular domain of TNF.

Applicants hereby respectfully elect without traverse Group I, presently comprising claims 28 and 35.

Favorable consideration is respectfully requested.

Respectfully submitted,

BROWDY AND NEIMARK, P.L.L.C.
